

# csv,conf,v2

a community conference for data makers everywhere

**Berlin, 3-4 May, 2016**

**Submit a talk proposal now!**

(deadline Feb 14th)

Want to propose a talk but aren't sure?

We're looking for new presenters as well as people with new ideas, so get in touch if you'd like help with your talk or your proposal. We'll gladly lend a helping hand to anyone who asks.

Let us know in your proposal if you need assistance getting to and from the conference.

To get your brain in gear thinking of a topic, here's some ideas from last year:

- \* parsing real estate data
- \* wikidata
- \* PDFs to CSV
- \* data and journalism
- \* accessibility in data

check out more talks from last year:
